T50T35

Product code: 0440

Usage: Professional

Description: T50T35 it is a new innovative peeling for infraorbital hyperpigmentation and dark circles.
A great combination of ingredients that make this peeling a great choice to balance and complement an integral facial result, with a safe and effective method.

Presentation: 5 vials of 10ml

Main ingredients: Aqua (Water), Dimethyl Mea, Glycolic Acid, Camellia Sinensis Leaf Extract, Hydrolized Hibiscos Esculentus Extract, Acetyl Hexapeptide-8 Argireline, Caprylyl Glycol, Acetyl Hexapeptide-30.

Main Characteristics & Effects: A significant reduction in various types of pigmentation, it promotes skin whitening, but its major advantage is being photosensitive, and it can be used at any time of the year. Anti-oxidant and reduce splenic iron deposition (one of the causes of dark circles), inhibit melanin synthesis, inhibit the triggering factors of inflammatory and vascular process, prevent the appearance of dark spots on the skin, effective in the most sensitive areas as eye circles and can be used to treat body pigmentation in areas of friction such as underarms or groin.

Recommended: Hair straightening, curl eyelashes and others.

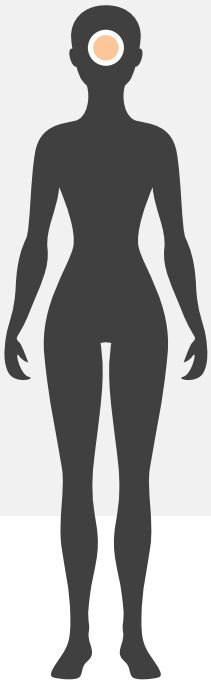

Frequency: Between 2 (minimum) to 6 sessions; With a timeline of 2 weeks between sessions.

Application protocol:

1. 1st Step: Cleanse the skin with the MCCM Cleansing milk and tone with MCCM Facial Tonic;
2. 3rd Step: Apply the Salicylic Removing 10% with a gauze in all face area, excluding the eyelid
3. 4th Step: apply the TT peel on periorbital area with a cotton swab:
   - o 2 layers should be applied – 3 minutes 1st layer | 2 minutes 2nd layer
   - o Exposure Time• maximum 5 minutes, in total.
4. Apply Neutralizing Spray and remove with cold water
5. 5th Step: Apply Smart Serum with few drops around the eyes and then gently spread it, leaving it as a thin layer; we can also apply Smart Serum on forehead and nasolabial fold and around the mouth and gently massage until absortion.
6. 6th Step: Apply the Patch Anti-Aging below the eyes and let work for 15 minutes
7. 7th Step: Apply the Sun Cream 50+

AEC

Product code: 0272

Usage: Professional

Description: As we grow older, our skin's ability to renew itself slows down. Skin loses its elasticity and wrinkles become more evident. Due to its active components based on Vitamin A, Vitamin E and Vitamin C, the AEC ampoules prevents flaccidity and coetaneous aging, promoting improvement of naturally aged skin.

Presentation: Pack of 20 ampoules 5ml;

Main ingredients: Retinol, Tocopherol, Ascorbic Acid

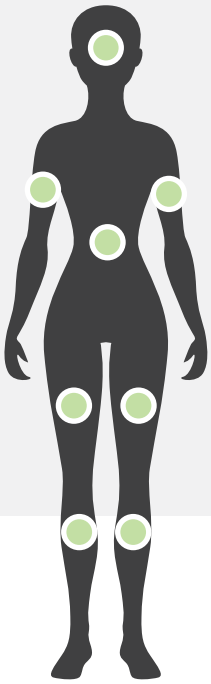

Main Characteristics & Effects: Induction of dermal elastin synthesis and elastin fibre formation, antioxidant. Improvement of barrier function of the skin. Powerful antioxidant, helps tissue growth and repair. Reverses the signs of photoaging in skin. Youthful looking skin.

Recommended: All skin types. Damaged skin.

Application: Apply the product in the area to be treated with circular movement massage or add it to a cream/mask Add the product to a gel intended for use in Transdermic Mesotherapy or other type of electrotherapy treatment such as ultrasounds, ionization or other types of medical devices used in aesthetic treatments.

PEPTONE GROWTH FACTOR

Product code: 0560

Usage: Professional

Description: With a strong oligopeptides-based formula, the Peptone Growth Factor is recommended to prevent and correct the appearance of expression lines and wrinkles while restoring skin volume, hydrating, and firming the skin.

Presentation: 5 vials of 10ml

Main ingredients: Hexapeptide -8; Acetyl hexapeptide 30; Glycolic Acid.

Recommended:
These peptides are indicated to skin aging treatments, they are able to attenuate the muscle contraction and reducing wrinkles while restoring skin volume, hydrating, and firming the skin.

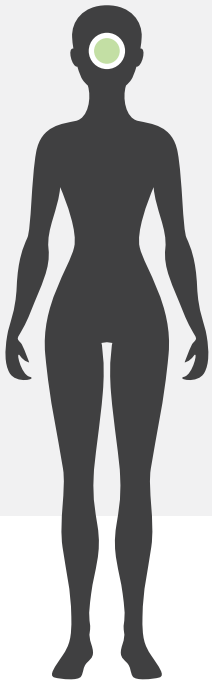

Main Characteristics & Effects:
Combination of hexapeptides that mimic the N-terminal end of SNAP-25 and competes with this natural protein for a position in the SNARE complex. As a result, neurotransmitters are efficiently not released, facial contractions are weakened and muscles relaxed, thus inhibiting wrinkle formation. These will support to decrease the appearance of wrinkle volume and length.
Glycolic acid helps to reduce wrinkles, dark spots and acne scars and improves skin firming.

Frequency: Between 4 - 6 sessions; With a timeline of 1 week between sessions.

Application: Apply the product on the area to be treated with circular movement massage or add it to a cream/mask. Add the product to a gel intended to be used in **Transdermic Mesotherap**y or other type of electrotherapy treatment such as ultrasounds, ionization or other types of medical devices used in aesthetic treatments. Follow-up and maintenance sessions are recommended.

PDRN + HYALURONIC ACID 1%

Product code: 0485

Usage: Professional

Description: The active ingredients of PDRN & HYALURONIC ACID 1% with regenerative properties increase skin hydration and are recommended for wrinkles, expression lines and age spots.

Presentation: 5 vials of 5ml

Main ingredients: Aqua (Water), Hyaluronic Acid, Deoxyribonucleic Acid.

Main Characteristics & Effects: Moisturizes and rejuvenates the skin. Enhanced volume effect and skin brightening improvement. Perfect for rejuvenating, regenerating and wound healing.

Recommended: Great option for small/medium wrinkles on the face, neck, neckline and hands. Also recommended for acne scars, scars and stretch marks.

Frequency: Recommended 4-6 sessions

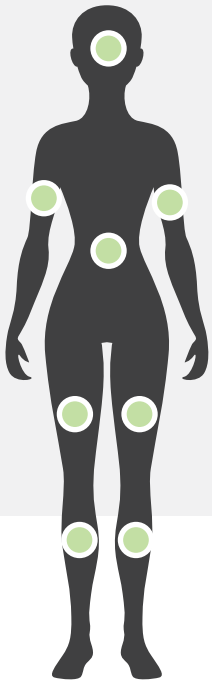

Maintenance: 1 session every 3-4 months

Application protocol (optional):

1. Cleanse the skin with the **Cleansing Milk** and **Facial Tonic** to remove all make-up and impurities.
2. Apply **Salicylic Removing** with cotton pads to remove all dead cells and prepare the skin to apply the **PDRN + HA 1%**.
3. Use the derma pen/meso injector/syringe to apply the **PDRN & Hyaluronic acid 1%** in all the face, or in a specific area to treat skin imperfections, scars, expression lines, or any other condition that **PDRN & Hyaluronic acid 1%** may help improve.
4. Apply half ampoule of **Dexpanthenol** directly on the skin with very gentle movements. This helps the skin to recover from needle application and moisture it as well.
5. Use the **Hydrogel Mask botox** effect as the most suitable mask for this treatment. On the top of the mask, apply the other half of the **Dexpanthenol** ampoule with a gentle massage.
6. Apply the **XR Cellular Performance** around the eyes and a small amont of the **XR Cellular Magic** on the rest of the face and neck.
7. Apply the **WA Arbutin Cream** on the face until full absorption. End up the treatment with **Sun Cream 50+**

1000 HA

Product code: 0561

Usage: Professional

Description: We pure and non-cross linked Hyaluronic acid is a key element for effective skin hydration and subcutaneous cellular tissue. We hyaluronic acid plays an important role in terms of an ideal basis for hydration, and it can also facilitate the distribution of other agents for the skin.

Presentation: Pack of 5 vials of hyaluronic acid 1500UI + 5 vials of saline solution 5ml.

Main ingredients: Hyaluronic Acid

Main Characteristics & Effects: Due to its high capacity to attract and fix water molecules, it helps maintain the elasticity of dermal and epidermal tissues. Its topical use allows to perform biological functions such as antimicrobial activity, inhibition of angiogenesis and promote wound healing (skin tissues repair).

Recommended: For damaged skin, dehydration, wrinkles, flaccidity or ultraviolet B-rays HA damage.

Frequency: Recommended 5 monthly or every other week sessions (depending on clinical evaluation)

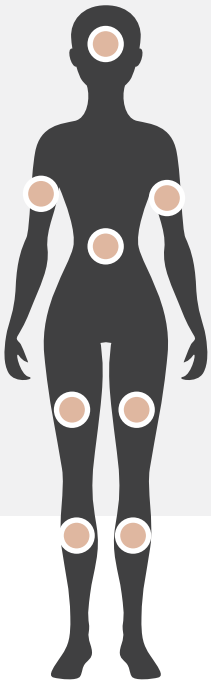

Maintenance: 1 session every 3-4 months.

Application protocol: Use a disposable needle and syringe to insert the saline solution into the vial of the lyophilized hyaluronic acid; shake until a homogeneous solution is obtained.
Afterwards, use according to the chosen application method.

It can be applied to the skin using:
- Traditional mesotherapy by needle (1G) or Dermaroller;
- Galvanic currents of iontophoresis or hydro electrophoresis;
- Ultrasounds (sonophoresis);
- Oxyendodermic (use of oxygen as a transport vehicle);
- Infrared (cataphoresis);
- Vacuum therapy;
- Electromagnetic currents (electroporation);
- Cold currents (crioelectrophoresis).

Description: DLE is an electro medicinal device that uses an electric current. Stimulates the lymphatic circulation in the lymphatic vessels, increasing the fluid absorption and macro molecules of interstitial tissue. This functionality is promoted by a product of chemical origin, aqueous, assisted by several active principles, with venotonic, circulatory and diuretically functions that will create an urgent movement of the same system, all of this, turns into, a perfect functioning of the most important systems for the individual developing.

Main Characteristics & Effects: Activate the peristaltic vessels capacity, absorbing oedemas, post-operative limbs swelling, arm swelling, Post-traumatic oedemas recurring from bone fractures; Also effective in embryonic oedemas of headache and spine pain; Stimulates the immune process by stimulating the production of lymphocytes;

Components:
Console
2x Gloves
2x Carbon Electrodes
2x Cables
Power Cord (cabo de alimentaçao confimar)

Frequency: 8 sessions are recommended to maximize the benefits of the treatment (this number may vary according to professional recommendation); Period between sessions: 5 days.

Contraindications:

- Pacemakers
- Do not apply if is a type of implanted device: the metallic implants, IUDs, distribution system of drugs, appliances, etc.
- Do not apply in the areas where there are fillers in the skin
- Do not apply if vascular disease
- Do not apply in the presence of skin diseases
- Do not apply on tumors
- Do not apply on ulcers and wounds
- Avoid treatment in cases of degenerative diseases
- Do not apply on halo breast or thyroid
- Warning about drug treatments in some cases may produce an increase in effect the same.

MESO

Product code: 0019

Usage: Professional

Description: The Meso is an electromedical equipment whose function is to generate two types of electrical impulses, which are applied by a roll-on on the skin.
The electroporation facilitates the transcutaneous transport of ionic substances, water and non-ionic substances. The electrophoretic current penetrates in the skin through the pores of the sweat glands and hair follicles. This becomes the main route of penetration of hydrophilic substances through the stratum corneum.

Main Characteristics & Effects: This equipment based its effectiveness in the combination of two complementary systems allowing the active ingredients penetrate the stratum corneum. The Meso™ offers 9 programs of treatment of advanced medical cosmetic treatments.

Components:
Console
2x Roll-On
2x Braceletes
2x Cables
Power Cord (cabo de alimentaçao confimar)

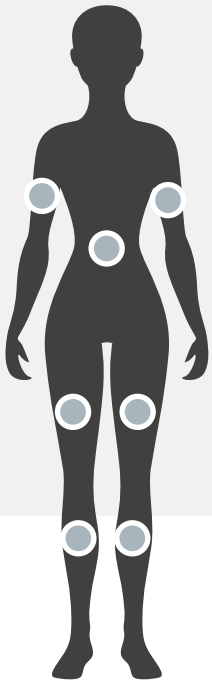

Frequency: 8 sessions are recommended to maximize the benefits of the treatment (this number may vary according to professional recommendation); Period between sessions: 5 days.

Contraindications:

PISTOR 5

Product code: 8231 | 8073

Usage: Professional

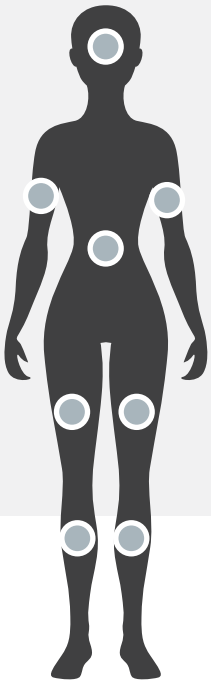

Description: PISTOR 5 is the most advanced and most efficient electronic injector actually on the market. To increase the safety of the practician and the patient's comfort, MI | Medical Innovation has always been at the forefront of research as proven by the high performances of PISTOR 5.

Main Characteristics & Effects: Power and speed of injection together with accuracy of delivered doses have been specially conceived to ensure identical functionality whatever the type of syringe or needle used.

Presentation:
Range of syringes: Centered Luer Cone Syringe 10 ml, 5 ml, 2,5 ml, 2 ml, 1 ml
Weight: 550 gr
Battery: Lithium ion 2200 mAh 7,4V
Autonomy: 36 hours
Charge duration: 2 hours max.
Life time: 5 years
Alimentation: Universal AC input / Full range IN PUT: 100 – 240 VAC - 50/60 Mz 0,8 A OUT PUT: 12 V 2,50 A 30 W
Max. Conform standards: EN60601-1 - IEC60601-1 and UL
Conforme normes: EN60601-1 – IEC 60601-1 et UL
Range of needles: 4 mm, 6 mm, 13 mm all diameter sizes

RADIO FREQUENCY

Product code: 0129

Usage: Professional

Description: RF INTELLIGENT ensures a great effectiveness in aesthetic treatments due to monopolar cutting-edge technology and the power emitted. RF Intelligent revitalizes and rejuvenates every cell in the treated area by stimulating the formation of collagen and elastin from the interior of the cell.

Main Characteristics & Effects: Treatment without discomfort; non-invasive; non-ablative; fast and effective treatments from the first session.

Components:
Console

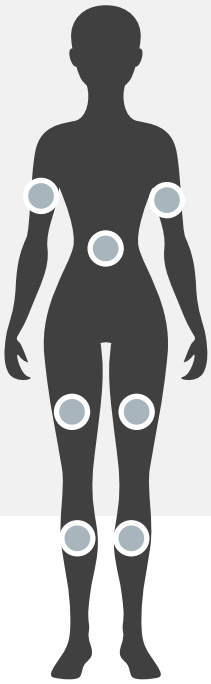

Frequency: For facial sessions is recommended 5 to 8 sessions and for body 8 to 10 sessions.
Period between sessions: 10 days.

Contraindications:

- Skin disorders
- Pacemakers
- Cardioverter or defibrillators
- Metal implants in the treated area
- Major diseases such as severe heart disease
- Coagulation disorders
- Connective tissue diseases
- Cancer

MESO DERMA Q SYSTEM

Product code: 0771 | 0772 | 0773 | 0774

Usage: Professional

Description: The Mesoderma-Q-System is a dermal roller device to activate collagen with micro-needles, which improve the penetration of active principles. It promotes the production of new collagen layers and the reduction of pigmentation problems, acne scars and pore size.

Presentation:
192 Titanium micro-needles 30G
0,2 mm | 0,5 mm | 1,0 mm | 1,5 mm

Main Characteristics & Effects: The micro-needles create micro channels allowing the active ingredients to penetrate from the surface into the dermal tissue.

Recommended: Transdermal transport of active principles; creation of new layers of collagen; reduction of pigmentation problem; acne scars and pore size.

Frequency: Monthly

Application protocol: Treatment with microneedling

1 **CLEANSE:** Cleanse the skin with the MCCM **Cleansing Milk**, applying it on the hands and then gently massage all over the face, neck and décolleté; then rinse with water; Apply the MCCM **Facial Tonic** with cotton pads;

2 **EXFOLIATE:** Apply the MCCM **Salicylic Removing** with a gauze or cotton pad, on the face, neck and décolleté;

3 **TREATMENT:** Disinfect the area to be treated with the **Meso Q Cleanse** and a gauze. Apply the Mesoderma Q System derma roller, gently rolling it forward and backwards, horizontally, vertically, and diagonally.
Apply an ampoule from the MCCM Professional ampoules selection on the area to be treated with gentle circular movement.

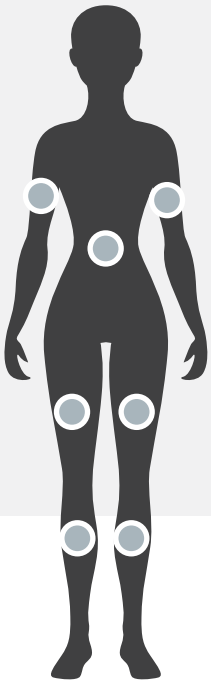

4 **MASK:** Apply the FACIAL MASK and let it act for about 20 minutes.

5 **MOISTURE:** Apply the Regenerator cream.

6 **PROTECTION:** Apply Sun cream
